INTRODUCTION

What is an Internship?

(Excerpt from National Association of Colleges and Employers [NACE])

An internship is a form of experiential learning that integrates knowledge and theory learned in the classroom with practical application and skills development in a professional setting. Internships give students the opportunity to gain valuable applied experience and make connections in professional fields they are considering for career paths, and give employers the opportunity to guide and evaluate talent.

The following criteria for internships were developed by NACE.

The experience must be an extension of the classroom.

It must allow the intern to apply knowledge gained in the classroom to real work issues.

The skills or knowledge learned in the internship must be transferable to other employment settings. The intern should not be learning skills that can only be used at one organization.

It must provide clearly defined learning objectives/goals related to the professional goals of the intern’s academic coursework. Learning objectives for credited internships are typically agreed upon by the intern, faculty, and employer.

It must be supervised by a professional with expertise and educational and/or professional background in the field of the experience. The supervisor should provide routine feedback, be accessible to the intern throughout the duration of the internship, and should serve as a mentor and provide guidance to interns during the internship, offering feedback on things they did well and on areas of improvement.

Employers must provide resources, equipment, and facilities that support learning objectives/goals. An intern should be provided with a space to work and appropriate tools, including a computer/printer, software/hardware, design materials, etc.

It must have a defined beginning and end, and a job description with desired qualifications.
PAID INTERNSHIP: A paid internship offers interns monetary compensation for their work as an intern. Interns may receive payment in the form of a stipend (paid in one or more lump sums) or an hourly rate. There may be other ways to obtain compensation such as reimbursement for travel, housing and/or other living expenses. Interns may also receive academic credit.

UNPAID INTERNSHIPS: An unpaid internship is the same as all other experiences except there is no monetary compensation. In an effort to be supportive of the needs of interns and employers, the internship should abide by the guidelines set forth in the Department of Labor Fair Labor Standards Act. The U.S. Fair Labor Standards Act (FLSA), which applies to all companies that have at least two employees directly engaged in interstate commerce and annual sales of at least $500,000.00, severely restricts an employer’s ability to use unpaid interns or trainees. It does not limit an employer’s ability to hire paid interns. See Fact Sheet #71 from the U.S. Department of Labor https://www.dol.gov/whd/regs/compliance/whdfs71.htm

ACADEMIC CREDIT: These internships allow interns to earn academic credit for their experience. The intern’s university or college decides if the intern is eligible to receive college credit or not. That decision is based on school policy as well as the criteria of the intern’s major. Interns interested in earning academic credit typically must meet college-specific guidelines and work with a faculty advisor. Interns receiving academic credit can be paid or unpaid.

Virtual Internships
(Excerpts from Moravian University Center for Career and Civic Engagement & Center for Research on College-Workforce Transitions, UW-Madison)

A virtual internship follows the same definition of a traditional internship as defined on page 3. A virtual internship removes the need for in-person interaction, but still must include close guidance from supervisors with expertise via video conferencing or phone call. Virtual internships can be paid, unpaid and/or for academic credit.

The list below contains several tips for companies and organizations that are considering hosting virtual internships.

- Allocate enough time before the start of the virtual internship to:
  - Select and test software for managing work.
  - Train staff to use software/systems (if interns are expected to use new software or information technology, it should be provided free-of-charge).
Develop a work plan for the intern, including training materials, activities and tools that the intern will need to be successful in the role.

Clearly define expectations for both the intern and the supervisor/mentor. These need to be agreed upon before the start of the internship. Goals and expectations should be reinforced on a regular basis.

- All tasks and projects must be carefully prepared and planned for the virtual intern to manage the work effectively by themselves. A written workplan that covers the entirety of the experience is suggested.
- Because the intern will not have the everyday interactions of the workplace, materials, instructions and task descriptions need to be well prepared and available online so the intern has access to that information when it is needed.
- Supervisors should engage their teams in the delivery of the virtual internship experience so the intern will have the opportunity to interact with several individuals throughout the course of the experience. Team members need to be committed and available to engage with virtual interns on a daily basis (and sometimes multiple times a day).
- Create and deliver a well-balanced experience for your intern that includes the opportunity for the intern to:
  - Learn about your organization.
  - Focus on professional development.
  - Engage in meaningful projects and work that will help to develop their overall ability to become a valuable team member in the future.

**Micro-Internships**
*(Excerpt from Parker Dewey)*

Micro-Internships are short-term, paid, professional assignments that are similar to those given to new hires or interns. These projects enable college students and recent graduates who are seeking to gain professional experience to demonstrate skills, explore career paths, and build their networks as they seek the right full-time role. Unlike traditional internships, Micro-Internships can take place year-round, typically range from five to 40 hours of work, and are due between one week and one month after kickoff.
ARE YOU READY FOR AN INTERN?
Are You Ready to Start an Internship Program?
(Excerpt from Muhlenberg College)

The questions below will help you determine if your company is prepared to manage an internship program, how you can benefit from having an intern, and how an intern would benefit from working with you. You may find that the answers provide a foundation for creating the internship position description.

1. How do you see your company benefitting from hosting an intern? Would you benefit from the work of interns to write, research, identify business leads, work with clients, or provide overall organization or program support?

2. What are the goals of your organization’s internship program? Do you need assistance completing a particular project? Are you supplementing staffing needs (though not using an intern as a replacement for a permanent employee)? Do you hope to use the program as a pipeline for potential full-time employees? Do you seek to cultivate talent in young professionals?

3. Will the intern be supervised by someone with expertise in the job function?

4. What do you want the intern to learn while interning at your organization?

5. Who would you like the intern to work with or meet?

6. Would having interns benefit current staff members by providing managerial and supervisory experience?

7. What type of project work needs to be completed? Is there an individual in the organization that will serve as the intern’s supervisor and point of contact for the college?

8. Do you have the support of senior management?

9. Does your organization have the space and resources to support an intern and his/her duties?

10. What is the intended duration of the internship? Will the need to fill this position be ongoing, or complete after one term?

11. What time of year can you host an intern? What are ideal start and end dates for the internship? Is this a part-time or full-time internship?

12. Are specific skills or technical knowledge/experience required to adequately complete the assigned tasks?

13. Are you looking for an intern in a particular major(s) or program of study; year level (freshman, sophomore, junior, senior); or GPA?

14. Can you offer opportunities for unique industry experiences during the internship? (Conferences, professional development, networking with industry professionals, etc.)

15. Is this a paid or unpaid internship? If unpaid, are there alternative forms of compensation that could be offered (transportation/ parking reimbursement, meal stipend, etc.)?

16. Are you able to develop and implement a training/orientation program for new interns?
Developing an Internship Program  
(Excerpt from Moravian University Center for Career and Civic Engagement)

Define your goals for the program.

Build support for the program at all levels. Commitment from top management is crucial in creating successful internship opportunities.

Plan ahead! Interns will need:

- A proper workspace including a desk, computer and access to technology.
- A supervisor/mentor. Be sure to include your intern in staff meetings, professional development opportunities, lunches and other gatherings.
- Information regarding compensation. Will the intern be paid? If so, how much?
- An orientation to the organization/position. Provide an orientation to your organization, overview of services, and an introduction to staff.
- Something to do. What are the intern’s duties? What are the learning goals?
- Useful and meaningful work. An intern does NOT mean free or low-cost help. Take time to learn your intern’s skills and strengths so you can create appropriate projects.
- A structured evaluation process. How will the intern be evaluated? When?
- Regular contact and feedback. Schedule a time to meet with your intern regularly.
- Immediate explanations. Be sure to explain policies and procedures to your intern. Sometimes interns may not know how/what to ask, so be proactive and explain.

Construct a job description which includes an overview of your organization, intern duties, special projects, and desired qualifications.
importance of diversity, equity, and inclusion
(excerpt from society for human resource management)

The diversity, equity, and inclusion (DEI) function deals with the qualities, experiences and work styles that make individuals unique (e.g., age, race, religion, disabilities, ethnicity, etc.) as well as how organizations can leverage those qualities in support of business objectives. Studies show that teams or organizations made up of individuals with a diverse mix of qualities, experiences and work styles tend to have available a richer set of ideas, perspectives and approaches to a business issue.

steps for boosting diversity hiring of interns
(reprinted courtesy of nace)

Employers have reported that enhancing DEI at their respective organizations is a critical goal for them. The following recommendations offer actionable insights based on the findings of NACE research for enhancing diversity hiring of interns.

Cast a wider net
In terms of school selection, employers should examine the demographics associated with the students at the schools at which they typically recruit and expand beyond that list as needed. Employers also can incorporate virtual recruiting options to reach schools that are not feasible to visit in person.

Conduct an equity audit of the internship cohort
An equity audit will help employers determine if they are indeed recruiting a sufficiently diverse internship cohort, bringing to light discrepancies in the composition of the cohort, pay rates, and possibly even the tasks and responsibilities given to interns.

Use the internship program as a diversified pipeline to a diverse workforce
As employers make efforts to diversify their workforce, their internship programs should be the starting point for this diversification. Ensuring a diverse group of interns will aid in diversifying newly hired employees.

Build on positive offer rates and conversions
Employers are doing well in terms of making offers to and converting female, Black, and Hispanic-American interns into full-time employees, exceeding the rates posted for male interns and those who identify as white. To keep this momentum going and achieve the level of diversity needed to reflect the diversity of the general American population, employers should continue to focus on converting interns from historically marginalized groups, while striving for equitable representation within their internship cohort.

Provide relocation assistance to interns
Providing relocation assistance to interns can be a powerful way of helping to diversify employers’ internship cohorts. Just as virtual recruiting and virtual internships show promise for diversifying internship cohorts and the general workforce, providing relocation assistance helps break down geographic barriers that block access to students seeking an internship.
WRITING THE INTERNSHIP POSITION DESCRIPTION

What Do You Need to Include?
(Excerpt from Muhlenberg College)

It is important to create a clear, detailed job description that outlines the responsibilities and qualifications of the internship position. Listed below are the basic items you should include in your position description to help you generate a pool of applicants that fit the needs of the position. See Appendix A.

Items to Include in the Internship Position Description:
(Excerpt from Muhlenberg College)

- The name of your organization
- Location
- A contact person to whom application/resumes will be sent
- The contact’s phone number and email address
- The internship position title
- Description of responsibilities and tasks
- Qualifications or required skills
- Information about scheduling/hours
- Desired start date and/or anticipated end date
- Compensation and/or wages
- Desired majors
- Desired class level: Freshman, Sophomore, Junior, Senior, Alumni
- Travel percentage
- Application materials: Resume, cover letter, transcript, writing, portfolio samples, etc.
- Training offered
- Expected learning outcomes

POSTING YOUR INTERNSHIP WITH COLLEGES & UNIVERSITIES

Posting on Handshake and Symplicity

Handshake and Symplicity are platforms used to manage job postings, interview schedules, and more. They allow you to directly connect with interns who apply and hold a virtual career fair, and put you in charge of your recruiting process. Each institution has a unique link to create an account on the platform they use. Refer to the Career Development & Internship Directory to find Handshake and Symplicity links for Lehigh Valley colleges and universities. See Appendices D and E.

ORIENTATION CHECKLIST

Onboarding the Intern
(Adapted from Muhlenberg College)

You should familiarize the intern with the in’s and out’s of your organization and help him/her acclimate to their new work environment. Many interns are unfamiliar with the activities, environment, and objectives of business and industry; a thorough orientation can help with this. The sooner your interns understand what your organization does and how it operates, the sooner they can assume their assigned responsibilities and become active and productive in your company. See Appendix B.
INTERNSHIP EVALUATION

Career Readiness and Intern Evaluation
(Reprinted courtesy of the NACE & excerpt from Society for Human Resource Management)

Career readiness is a foundation from which to demonstrate requisite core competencies that broadly prepare the intern for success in the workplace and lifelong career management. NACE has identified eight key competencies related to career readiness. These competencies can be used as a metric to evaluate an intern.

An internship evaluation is important to the intern’s professional and personal development. The evaluation is often a guide for counseling the intern. Each evaluating supervisor is encouraged to review the intern’s performance with him/her/them. See Appendix C.

NACE Key Competencies

Career & Self Development

Proactively develop oneself and one’s career through continual personal and professional learning, awareness of one’s strengths and weaknesses, navigation of career opportunities, and networking to build relationships within and without one’s organization.

Communication

Clearly and effectively exchange information, ideas, facts, and perspectives with persons inside and outside of an organization.

Critical Thinking

Identify and respond to needs based upon an understanding of situational context and logical analysis of relevant information.

Equity & Inclusion

Demonstrate the awareness, attitude, knowledge, and skills required to equitably engage and include people from different local and global cultures. Engage in anti-racist practices that actively challenge the systems, structures, and policies of racism.

Leadership

Recognize and capitalize on personal and team strengths to achieve organizational goals.

Professionalism

Knowing work environments differ greatly, understand and demonstrate effective work habits, and act in the interest of the larger community and workplace.

Teamwork

Build and maintain collaborative relationships to work effectively toward common goals, while appreciating diverse viewpoints and shared responsibilities.

Technology

Understand and leverage technologies ethically to enhance efficiencies, complete tasks, and accomplish goals.
REFERENCES

This project was made possible with the time, experience, and effort of regional partners including the Education and Talent Supply Council and Lehigh Valley colleges and universities including Cedar Crest College, DeSales University, East Stroudsburg University, Kutztown University, Lafayette College, Lehigh Carbon Community College, Lehigh University, Moravian University, Muhlenberg College, Northampton Community College, and Penn State Lehigh Valley.
Sample: Accounting Internship Description

Baltimore Accounting, LLC

Position Available: Accounting Intern

Jump-start a career in the field of accounting. Internships at Baltimore Accounting, LLC offer distinctive, hands-on experience and unparalleled networking opportunities. As an intern, you will work alongside licensed CPAs to provide support in all aspects of accounting. We are a firm that provides audit, compilation, consulting, and review services for for-profit, nonprofit, and employee benefit plans as well as individual and corporate tax return preparation.

Responsibilities include:

- Assist the Finance Manager in daily operations such as accounts payable/receivable
- Prepare and review financial statements and management letters
- Assist in the preparation of quarterly expenses analysis and weekly financial reports
- Perform membership and sponsorship tracking and follow ups
- Assist Controller with preparing billing audits and sales tax reports
- Attend networking events to develop new client relationships and strengthen existing partnerships

Knowledge, Skills, and Abilities:

- Solid reasoning, analytical, technical, mathematical and language abilities
- Must possess excellent work ethic and ability to self-motivate
- Must be able to multi-task as well as communicate well with clients
- Understands the importance of being a team player

Interns are expected to work a minimum of 15 hours per week. Compensation is $15.50/hour. Undergraduate and graduate interns with a GPA of 3.0 or higher are encouraged to apply. Summer, Fall, and Spring sessions are offered.

The Application Process: All intern applicants should submit a cover letter and a resume by email. The cover letter should clearly state the position the applicant is applying for, the semester of interest, approximate date on which he/she would be available to begin work if selected, and why would he/she be a good fit for the position desired.

Application Dates: Applicants are encouraged to apply as early as possible prior to the deadline of June 1.

Please send applications by email to: janesmith@xzyaccounting.com
APPENDIX B
Orientation Checklist

1. Prior to the Start of the Internship

- Establish and agree upon the start date, end date, and work hours/schedule. Adhere to the agreed upon hours and dates as closely as possible. During the internship, changes in scheduling should be discussed in advance.

- If the intern is completing the internship for academic credit, provide assistance with granting credit as needed.

- Set up an organized workspace for the intern; set up phone, computer, email, and any other resources necessary for the intern to fulfill the responsibilities discussed.

- Establish expectations regarding the organizational dress code.

- Review employer expectations and job description; outline work expectations for the duration of the internship.

- Review and discuss the mission of the organization and how the intern fits into that role.

2. The First Two Days of the Internship

- Provide a tour of the facility and introduce the intern to other employees.

- Explain use of equipment such as phones/making calls, computer, copier, fax machine, supplies/forms.

- Provide intern with organization chart and contact list of key personnel (supervisor, IT, HR, etc.).

- Review company policies and safety/emergency policies—interns should be made aware of your company’s sexual harassment policy.

- Discuss timesheets, including proper completion and deadlines, time off, and overtime rules (if applicable).

- Discuss absences, such as how and when to notify the supervisor (provide contact information).

- Further discuss the position description and specific task/project details.

3. Within the First Two Weeks of the Internship

- Provide an overview of the company culture.

- Establish project timeframes and expectations on how to complete projects.

- Review procedures for payment and reimbursement of travel expenses (if applicable).

- Outline opportunities to network within the organization.

4. How Can You Provide this Information

- Give your intern company materials to read such as newsletters, annual reports, organization charts, etc.

- Encourage your intern to spend breaks and lunchtimes in places where employees gather.

- Schedule regular one-to-one meetings with the intern.

- Give the intern opportunities to observe or participate in professional meetings.

- Allow the intern to interview company personnel to learn more about their position/role.

This project was made possible with the time, experience, and effort of regional partners including the Education and Talent Supply Council and Lehigh Valley colleges and universities including Cedar Crest College, DeSales University, East Stroudsburg University, Kutztown University, Lafayette College, Lehigh Carbon Community College, Lehigh University, Moravian University, Muhlenberg College, Northampton Community College, and Penn State Lehigh Valley.
Our Mission
The mission of the Lehigh Valley Economic Development Corporation is to market the economic assets of the Lehigh Valley and to create partnerships to support the recruitment, growth and retention of employers and the creation of jobs for people of all skills and educations.

Our Vision
Our vision is of a diverse Lehigh Valley economy that provides economic growth and opportunity for people of all skills and education and strengthens all our cities, boroughs, and townships.

Our Values
Find a way: We do what it takes to solve the problem or find the answer

Build the team: We work with each other and all partners to find solutions

Collaborate: We are the region’s economic connector

Inspire trust: Treat all equally and fairly and focus on the big picture

Results first: Focus our work and efforts on outcomes, not on process

Our Principles
To Create Value and Use What We’re Given… We will serve the people, the employers, and the governments of the Lehigh Valley by maximizing the financial resources and partnerships that are available to us in an efficient, professional, and value-added manner.
